J. DAVIS ERUPTS.

Continued From First Page.

Senator Owen replied that Davis's speech did not deserve an answer, but explained that all that stood in the way of the pipe line was about fourteen forty-acre tracts of public land, which could not be condemned in the usual way.

He said the Standard Oil Company had been admitted to Arkansas by the great authority of the State.

GORE SNUBS INTERRUPTED. "By what authority?" demanded Davis.

"Does the Senator from Oklahoma yield?" asked Senator Gamble, in the chair.

"I decline to yield," said Owen.

"The Senator from Arkansas has forfeited his right to consideration from the Senator from Oklahoma. He has forfeited his right to the respect of the Senator from Oklahoma. I desire that he remember that."

When he had taken his seat Senator Davis said:

"As to forfeiting the respect of the Senator from Oklahoma, I am not noting. I toss it to the winds. I never had any use for him in the first place."

Owen said the Standard Oil Company had complied with all the provisions of the Arkansas State law. Davis replied that Owen was not the case.

Davis closed his speech with another reference to John D. Rockefeller, whom he characterized as "an old, sly fox," who, however, had many friends, in court and in out. He asked a roll call on the vote, but the request was denied.

On a viva voce vote the bill then was passed, Davis alone voting "no."

Missouri Governor Issues Statement Challenging Democratic Boss's Shilly-Shallying Course in Finally Refusing to Meet Challenge—Folk More Than Willing for Another Count.

(BY DIRECT WIRE TO THE TIMES.)

JEFFERSON CITY, Mo., Feb. 13.—(Exclusive Dispatch.) Gov. Hadley, in a statement issued today, declares that the laws governing elections do not apply to a Senatorial primary, but that Senator Stone, by his "pitiful backdown," makes a discussion of legal questions unnecessary.

The Governor's statement, in part, says: "I feel the people of Missouri will have no difficulty in placing a proper construction upon Senator Stone's refusal to agree to a recount of the ballots in St. Louis after they had been promptly assented to."

"On last Monday he was criticizing me most severely because I waited, he said, until three days after the ballots in the St. Louis primary were destroyed before charging that vote in that primary had not been honestly counted."

"Tuesday I advised him that the ballots were still in existence and asked that he and Gov. Folk consent they should be recounted. Gov. Folk promptly wired me his consent and, according to the St. Louis Post-Dispatch, Senator Stone also expressed his willingness to a recount."

"Wednesday morning, however, he was vigorously denying the interview published the day before and was asking time in which to consider the proposition, promising he would make a reply that 'would be satisfactory.' This morning he has done what he could have been expected to do—refused to agree to a recount for the reason it would be 'unconstitutional.'"

Joseph N. Isaacs.

REDDING, Feb. 13.—Joseph N. Isaacs, one of the proprietors of the Shasta County Democrat, was found dead late last night in front of the residence of Mr. J. H. Lantry, who has started to consult during an attack of heart trouble. Hearing a man staggering onto his porch, Dr. Bryant telephoned for the police. When the officers arrived they found the dead body of Isaacs. The deceased was one of the best known newspaper men in this section of the State. He leaves a widow and two small children.

HOGS BECOME REAL LUXURY.

Porkers Highest in Price Since Civil War.

Big Chicago Packers Become Apparently Idle.

Entire Country Is Affected by the Shortage.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Feb. 13.—(Exclusive Dispatch.) While the big Chicago packers apparently were idle and made no expression of their attitude on the market today, hogs reached a top price of \$9.40 a hundred pounds under the influence of outside buying. This is the highest price ever paid for hogs since the Civil War, the previous record mark having been made in 1833, when \$9.35 was the top price. At St. Louis the market was also at the top figure there being \$9.10.

It is predicted that the drama of the speculators in the yards will be repeated within a few days. Hog prices have been rising steadily for the last three weeks and there is no change in sight. The price has gone up more than \$1.

With the sudden rise today there were some of great excitement in the markets in the yards. Every speculator interested in hogs awaited news from the butchers of the big packers, but neither Armour nor any of the others broke their silence.

There were only 24,000 hogs in the yards, while a year ago there were twice that number. Pittsburgh and Buffalo have practically no supply of hogs, while in Pennsylvania and New York, which have previously relied on their own supply, are "cleaned out" of hogs.

It is predicted that if the present price keeps on, pork chops, bacon, ham, lard and other products will be no higher than the cost of the raw material. The packers are already ranked as luxuries. These foods already are ranked as luxuries. These foods already are ranked as luxuries.

Major is of the opinion that many of the butchers are but distributors of the packers. Few of them slaughter their own stock, he says, but they are but distributors of the packers. Few of them slaughter their own stock, he says, but they are but distributors of the packers.

Major has information that the National Packing Company's \$12,000,000 corporation was organized and controlled by the Armour, Swift and Morris interests. He wants evidence along this line.

Major would like to know also just what functions the National Packing Company performs. The company is said to be one that manipulates not only the live-stock market, but fixes the price of meat and provisions generally to consumers. It is a New Jersey corporation, and is not licensed in Missouri.

He will want to know the amount of the company's capital.

PACKERS ON WITNESS STAND SAY COMPETITION IS KEEN.

(BY DIRECT WIRE TO THE TIMES.)

JEFFERSON CITY, Mo., Feb. 13.—(Exclusive Dispatch.) Judge Dyer, in an opinion in the case of the Armour Packing Company, before the hearing began, said that the market price of livestock was well above the level of the market price of livestock.

He is of the opinion that the Armour and Morris violated the laws of Missouri when they organized the National Packing Company, a \$12,000,000 corporation, thought to be the company controlling the distribution of fresh meat and final arbiters of prices in the packing industry. Armour disclaimed all knowledge of the organization and functions of the National Packing Company.

To repeated questions along this line he replied: "I have no knowledge of such a corporation." Armour declared a long string of family connections and established for the Attorney-General a legal family tree, which was necessary as a basis for the suit.

SAYS COMPETITION IS KEEN. Armour testified that there is active competition in nearly every Missouri town between the companies involved in Major's inquiry, yet Major is of the opinion that the State is divided up among railroad lines. He says there are 76 packing companies in the United States, but that the big companies, Armour, Swift and Morris and the larger concerns under fire, control about 45 per cent. of the total meat supply consumed.

This is the second time within the last ten years that the large packers have been under fire in Missouri. Eight years ago, when the Attorney-General, convicted of the larger concerns of violating the anti-trust laws of the State and they were made to pay a fine of \$500 each. An order of ouster was set aside by the Supreme Court when the fines were paid and the packers were permitted to continue business.

When Major takes up the St. Louis end of the packing inquiry he hopes to find out what relation there is, if any, existing between the butchers' association and the packers. He believes the butchers are but distributors of the packers. Few of them slaughter their own stock, he says, but they are but distributors of the packers.

The Art Neckwear Co., that was formerly located on South Broadway, manufactured all
sorts of neckwear for men and women and sold the same at retail as well as wholesale. In
addition to their neckwear they carried the lines of women's handkerchiefs, hosiery, corsets
and fancy goods. Their stock was sold by the Los Angeles Wholesalers' Board of Trade.
We secured it at a ridiculously low price. It goes on sale this morning at prices ranging any-
where from 1/4 to 1/2 its value. The best things will be snapped up first, so an early response
is advisable. In addition to the Art Neckwear Co. stock we are forcing out thousands of dol-
lars' worth of our own merchandise. Hale's Good Goods at prices so low that no thrifty
woman can afford to refrain from buying. Read on:

\$1.95

Certainly unusual for skirts worth those prices to be selling at \$1.95. They are made of all-wool cheviots and Scotch checks and plaids. For a big, radical clearance, we've marked them for today at \$1.95.

100 women have this opportunity to make selections from good desirable tailored suits that are actually marked \$14.50, \$17.50, \$19.50, \$22.50 and \$25, Friday at \$12.50. There are only two, three or four of a kind, but these kinds happen to be unusually stylish and practical—styles that you would willingly select at the regular prices. But determination to close the odd garments out have developed into this remarkable price Friday.

There are suits of fine all wool materials, including chevrons, serges, prunellas, wide wales, etc. The skirts are in popular pleated models. Coats are lined with satin. Colors include black, blue, brown, gray, green, wine and smoke.

We've set today for the day to close out every one of these long, medium and short coats, which are priced at \$10, \$12.50, \$17.50, \$19.50 and \$25.

The garments include fine broadcloths, covert cloth, chevrons, rough weaves, in tan, black, brown, green and gray. Tight-fitting, a fitting, or loose styles, as you like. Today select from these at \$9

VOTERS MAKE SUGGESTIONS.
(BY DIRECT WIRE TO THE TIMES.)

Received several letters from his old friend suggesting that as Los Angeles Representative P. A. Stanton for Governor, the outside place should be allowed to go to the Senator and that they would need him as they know him. Riverdale and San Bernardino counties have heard from to this effect. Congressman Smith has also received suggestions from his old friends.

**Forethought
and
Civilization**

There are tree-men in Guyana today, claim a German savant, who are little above the monkey. There are about three and a half feet high, have no language, no fixed habitation, and live on what they can get every day, never preparing for the morrow. From this he argues that forethought in the distinguishing characteristic of the civilized man.

Young man, are you like a tree-man, or have you sufficient forethought to start a bank account?

CONLEY FAVORITE.
Interest in the 45-round contest between Frankie Conley and Monte Attell is increasing, as the bugs appreciate the importance of the event. The battle will decide the lightweight championship and the possession of the McCarey belt. The winner of the contest has agreed to meet Danny Webster later in a bout for the honors.

Conley gained many admirers yesterday by the way he handled himself when boxing four rounds with Paul Simon, and his work is showing in the betting, he now being a slight favorite over the San Francisco boy.

Attell continued his training at Arcadia, and his boxing with Billy Cappelletti was of the sensational order, the little fellows mixing it in ding-dong fashion. Monte weighed 119 pounds and the 116 mark, at which the boys will meet Tuesday afternoon at Vernon Arena.

Cleveland and Cappelletti will go over the ten-round course, and from the way Cappelletti talks he expects to administer the knockout punch to the colored lad, but if he does it will be the first time he has been downed in his career.

Conley is expected to arrive in Los Angeles tomorrow morning, and is expected to arrive in Los Angeles tomorrow morning.

BRIGHT LIGHTS FOR THE SHOW.

Ten Thousand Globes Set in Tent Roof Canopy.

Jacksons Are First on Big Fiesta Park Floor.

Packards and Stoddards Reach Here by Express.

Ten thousand electric lights will be switched on Saturday night at 8 o'clock, when the licensed automobile show is opened at Fiesta Park. Strung above the 80,000 feet of floor space, the many lights have been formed into a network of brilliancy which will add to the bright colors of the automobiles.

One glance at Fiesta Park gives the idea of immensity. Manager Conwell has been forced to add extra streamers of light because of the great size of the inclosure. At first a contract was let for 2000 globes. This was doubled two days later, when it was found necessary to make the interior as light as day.

In addition to the thousands of small lights there will be hundreds of arc lights suspended from the ten roof poles.

All records for size have been broken by the inclosure for the show. These cars are here and both concerns will make handsome displays.

CROOKED BUSINESS.

BAD ACTORS BUILT OFF. Associated Press Night Report.

JUAREZ, Feb. 17.—The stewards today ruled off the turf Jockey J. Cook, rider of Anona in the second race; Charles Closson & Co., trainer C. Pyle of Denver, and two valets, U. Young and D. Howell.

When the horses finished in the second race Anona was bleeding from several wounds on the neck. The stewards, upon examining the whip used by Cook, found a nail two inches long and as sharp as a needle in the butt. Every time the mare was hit with the whip, it acted as an electric battery.

AFTER THIRTY HOURS CONBOY
JURY FAILS TO FIND VERDICT.

[ASSOCIATED PRESS NIGHT REPORT.]

SAN FRANCISCO, Feb. 17.—After being out for thirty hours without reaching a verdict, the jury in the case of Michael J. Conboy, former captain of police, charged with the murder of Bernard Lagan, was discharged about 5:30 o'clock this evening. The jury stood ten for conviction and two for acquittal.

Spire Riazovich, a furniture dealer, and P. L. Cook, a jeweler, held out against conviction. Both declared that they believe that Conboy thought he was about to be attacked when he shot Lagan.

The shooting of Bernard Lagan took place on the morning of June 25, 1930, between the hours of 12 and 1. Lagan, a young business, was returning from a party with a friend when he stopped to speak to Conboy, who was leaning against a telephone pole. According to witnesses, Lagan attempted to assist Conboy to his feet, but desisted when the latter objected. As he was walking away, some words were exchanged between the two and as Lagan started to retrace his steps, Conboy fired three shots, one of which entered the spine of his victim, causing paralysis from which he died October 6.

Conboy was removed from the police department shortly after the shooting.

BILL PENDING.

RECLAMATION IS
WARMLY ARGUED

SENATE HEARS FIGHT TO COM-
PLETE PROJECTS.

Bill Authorizing Issuance of Certificates of Indebtedness to Finish Work Is Under Discussion and Champions of Measure Declare That Many Farmers Are Denied Water.

[ASSOCIATED PRESS NIGHT REPORT.]

WASHINGTON, Feb. 17.—For more than two hours today the Senate listened to a discussion of the Senate bill authorizing the issuance of \$20,000,000 worth of certificates of indebtedness for the completion of irrigation projects already begun.

The measure was championed by a number of Senators, especially by Messrs. Carter and Borah. Mr. Carter said that in a number of cases reservoirs had been completed while the ditches had not been constructed. The effect was to withhold the water from settlers. It was stated the money would be all repaid by settlers, and in reality, the treasury would not be affected in any way.

The fear was expressed by Senators Flint and Crawford that the department might be tempted to enter upon new schemes, before the completion of the old enterprises, and thus involve the government in further obligations. It was contended on behalf of the measure that the danger had been averted by the language of the bill.

Senator Heyburn said the shortage of the reclamation fund was due to the withdrawal of the public lands from sale. Thus the fund had been starved by the government, and Congress had hesitated to replenish the process. He said it would not be asking too much to ask the appropriation of the money necessary to make good the wrong done. He urged that the relief should not be crimped.

The bill was under consideration when the Senate adjourned.

VOTES, BUT IS NOT CITIZEN.

Pittsburgh Man Who Has Cast Ballots for Many Years Is Denied Right of Suffrage.

[ASSOCIATED PRESS DAY REPORT.]

PITTSBURGH, Feb. 17.—After voting at every election for more than half a century, Robert Gordon of this city has discovered he is not a citizen of the United States, and his right of suffrage has been denied. He immediately filed his first papers in the naturalization court, although he is 75 years old.

Mr. Gordon was born in Ireland and came to this country when he was 8 years old. He voted for John C. Fremont and always took an active part in politics. The passage of the registration law in 1907 required every voter of foreign birth to present a certificate of citizenship. Mr. Gordon was unable to do this, and his name could not be found on any records, and the papers of his father he was unable to find.

ATHENS EXPECTS AN ATTACK.

Troops Are Reported to Have Been Summoned to Repulse the Mutilous Navy.

[BY DIRECT WIRE TO THE TIMES.]

LONDON, Feb. 17.—(Exclusive Dispatch.)—A news agency dispatch received today declares that reinforcements have been rushed to the Military League force that is holding Athens in anticipation of an attack from the mutilous navy.

The city is in a panic, but the army is believed to be in the ascendancy because of the seizure of navy ammunition, by which move several torpedo boats have been put out of commission and the power of the entire navy force has been diminished greatly.

All available troops have been summoned from the provinces to the capital, the dispatch adds. The dispatch also believed to be exaggerated, as no government officials have received news of any outbreak.

SHORTER SKIRTS FOR DENVER

City Council Considering Appeal Made by Society Woman Who Advocates Abbreviated Garments.

[ASSOCIATED PRESS DAY REPORT.]

DENVER, Feb. 17.—The length of women's skirts for street wear will be regulated by law, if the Denver City Council acts favorably on a suggestion received by Mayor Speer in a letter received from one of Denver's society leaders. Though the name of the author is withheld, intimation of the plan outlined has caused considerable uneasiness in society circles, where Mrs. M. C. Speer is expected at this time to curtail the dominion of Dame Fashion.

The Mayor's correspondent suggests that an ordinance be passed limiting the length of skirts so that they will not trail on the sidewalks or sweep over car steps as their wearers disembark. The bachelor committee of the Council having under advisement the suggestion, is being overwhelmed with protests by Denver women.

OIL NEARLY FATAL TO FIFTY.

LAUREL (Md.) Feb. 17.—A mistake in the delivery of two barrels of oil nearly caused fatal results here when fifty persons were made violently ill by eating doughnuts prepared in machine oil instead of cooking oil. In two instances entire families were sick and the physicians had to work hard to save the lives. It developed today that the machine oil had been ordered by a hardware dealer, who received instead the barrels intended for a baker.

WOMAN'S PILLOW A SAFE.

Court Holds That Jewels So Placed Is Same as If in Safety Deposit Box.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, Feb. 17.—Custom has decided that a woman's pillow is her safe deposit vault at night and as such can be considered judiciously as a safe place for the security of her jewelry or other valuables as the value of the United States Treasury. Justice Porter of the General Sessions Court handed down this opinion today, in declining to return to pawnbrokers with whom they had been pledged, jewels worth nearly \$5000 stolen from Ida Emerson Hills.

Miss Hills had put the jewelry under her pillow when retiring with her mother after a New Year's night party in the house of her brother-in-law, Charles H. Zimmerman. When she awoke next morning she found the jewels had been stolen and Zimmerman was arrested and today was sentenced to Sing Sing.

The pawnbrokers claimed that Miss Hills had been guilty of negligence in not putting her jewelry in a safe place. Judge Porter's dictum upset their claim.

STORK TO VISIT BRYAN, JR.

Perpetual Presidential Candidate Will Spend Much Time at Home Fighting for County Option.

[BY DIRECT WIRE TO THE TIMES.]

LINCOLN (Nebr.) Feb. 17.—(Exclusive Dispatch.)—The Rooseveltian bird is expected at Tucson, Ariz., during April or May in the household of W. J. Bryan, Jr., who was married a year ago to Miss Helen Berger of Milwaukee. The young couple are making their home at Tucson, Mrs. Bryan, Sr., and Mrs. Leavitt probably will go there soon after they reach here.

Mr. Bryan, Sr., will return to Nebraska about the first of May and devote the greater part of that month to a political campaign in his home State, chiefly in the interests of county option. This was the statement made today by his friends and was in the main confirmed by his brother, Charles W. Bryan.

Mr. Bryan's return at that time does not mean any essential change in his previously arranged programme except so far as concerns his active support of county option, which political leaders of all parties see will tend to widen the breach between himself and prominent in the Democratic party of the State. The further statement was made that Mr. Bryan arranged his present programme before he left Lincoln last fall.

DIVORCES COMMON LAW WIFE.

Cincinnati Judge Severs Contract Made in Los Angeles and Woman Gets Alimony.

[BY DIRECT WIRE TO THE TIMES.]

CINCINNATI (O.) Feb. 17.—(Exclusive Dispatch.)—That the articles drawn up between Louis Drach of Cincinnati and Lois Mustain, in Los Angeles several years ago, bound them together by the bonds of wedlock and that Mrs. Drach shall now be married from her common-law husband, was the decision of Judge Warner in Insolvency Court here this afternoon. Judge Warner held that the articles were valid and that Mrs. Drach had a right to be divorced. He allowed her a lump sum of \$500 and alimony at the rate of \$25 a month. She was in Los Angeles racing her horses there when she met Drach. He is president of the Louis Drach Construction Company here.

WATCHING A STOMACH

DIGEST FOOD

WAS MEANS WHEREBY SCIENCE

MADE POSSIBLE THE CURE OF DYSPEPSIA.

A Trial Package of Stuart's Dyspepsia Tablets Sent Free.

The Abbe Spallanzani was the first scientist to study systematically the chemical powers of the gastric juice, but it was by the careful and convincing experiments of Beaumont that the foundation of our exact knowledge of its composition and action was laid. Beaumont was an army surgeon, located at an obscure military post in Michigan, while it was yet a territory, and was called upon to treat a gunshot wound of the stomach in a Canadian voyageur—Alexis St. Martin. When the wound healed a permanent opening was left by means of which food could be placed in the stomach and gastric juice taken from it.

Beaumont made scientific experiments with his crude means and wrote a book, which today is recognized among the classics of physiology. Beaumont blazed the way for other scientists so that today medicine knows what the stomach does with food and what food does to the stomach.

Science also knows what the gastric juices are and how to make them best for the system. Stuart's Dyspepsia Tablets, thanks to the poor army surgeon and Alexis St. Martin, give man a means of digesting food, replenishing the exhausted juices, soothing the nerves and correcting dyspeptic conditions of the stomach.

Stuart's Dyspepsia Tablets are natural fruit and vegetable essences reduced in concentrated form and by tremendous power compressed into a tablet. These wonderful little digesters are known all over America and Canada. Full meals have been digested by them in glass tubes, and they are sold by every druggist.

Physicians to the number of 40,000 use them. They are meritorious and powerful. Go to your druggist and buy a package today, price 50c, or send us your name and address and we will

Ross Reznor Foster,
well-known young man, who passed
away yesterday.

DEATH SHORTENS BRIGHT CAREER.

NEPHEW OF EX-SENATOR CLARK
DIES IN THIS CITY.

Was Well Known in Society and as
a Member of Many Exclusive Clubs.
Leaves a Widow and Mother—Fun-
eral Services to Be Held Tomorrow
Morning.

Ross Reznor Foster, nephew of ex-
Senator Clark and J. Ross Clark, died
at his home in this city yesterday,
aged 25 years, and the funeral will be
held in the Bresson Bros. chapel to-
morrow morning at 11 o'clock.

Mr. Foster was exceedingly well
known in this city, especially in so-
ciety's younger set, and a host of
friends will mourn his early death.
He was a member of the California
and Jonathan clubs and of the Los
Angeles Athletic Club. He had been a
resident of Los Angeles for about
eight years.

Mr. Foster was the only son of the
late Lee Foster, one of the great min-
ing operators of Montana, with head-
quarters in Butte, and since his father's
death a few years ago Mr. Foster
had devoted himself to the man-
agement of his father's extensive estate.

About three years ago Mr. Foster
married Miss Hazel Foster, who lives
as does his mother, Mrs. Lee Foster.
Their home is at No. 97 Berendo
street.

After graduating from Leland Stan-
ford Jr. University young Foster en-
tered the hardware business for a few
years and acquired a business train-
ing, but upon the death of his father
renounced active work in this line
to look after the valuable interests
committed to his care.

GETS READY FOR DEFENSE.

Dr. Burke Hires Famous State Lawyer;
Many Witnesses Arrive for
Trial.

[ASSOCIATED PRESS NIGHT REPORT.]
SANTA ROSA, Feb. 17.—Former
Congressman T. J. Geary, widely
known as the author of the Geary
Chinese exclusion act, will defend Dr.
Willard P. Burke, who was arrested
in connection with the dynamiting of
the tent-house on his sanatorium
grounds, occupied by Luella Smith
and her 11-month-old baby, of which
she alleges Dr. Burke is the father.

It was announced today that Mr.
Geary had been retained and that J.
R. Leppo, also of Santa Rosa, will be
associated with him in conducting Dr.
Burke's defense.

A number of witnesses arrived to-
night in anticipation of tomorrow's
session of the grand jury, which has
been called to consider the evidence
against Dr. Burke which had been
gathered by Dist. Atty. Los and Sher-
iff Smith.

Among those here who will proba-
bly be called to testify are Dr. A. W.
Hill, formerly a physician at Burke's
sanatorium; D. W. Dillars, formerly
Dr. Burke's chief clerk, and C. E.
Naylor, attorney for Luella Smith.
Thomas Riley, the miner employed
in Dr. Burke's mine at Kanaka Peak,
who made a statement that Dr. Burke
took away with him six sticks of dy-
namite, also arrived on a late train
last night. Riley alleges that he was
discharged from Dr. Burke's employ
after he made the statement.

A systematic search has been going
on in the vicinity of the sanatorium
grounds since last Sunday in the ef-
fort of the authorities to find the
other five sticks of explosive, the the-
ory of the District Attorney being that
but one stick was used. No trace of
any explosive was found.

LABORITES WILL REVOLT.

Leader Tells Premier If Budget Pro-
poses Lord's Veto Party Will
Join Opposition.

[ASSOCIATED PRESS NIGHT REPORT.]

LONDON, Feb. 17.—George M.
Barnes, member of Parliament for
Glasgow, Scotland division, recently
elected chairman of the Labor party in
Parliament, caused a political sen-
sation today by issuing a manifesto
which, if acted upon, means the sever-
ance of the tie uniting the Liberals
and Laborites.

"I learn," writes Mr. Barnes, "that
Premier Asquith is to hold office with
the assurance of the King with re-
gard to veto, and that the veto is to
be dealt with after the budget."

"That, of course, will not be ac-
ceptable to the Labor party. It means
that the Premier thinks the general
elections are not sufficiently decisive
with regard to the Lords' veto, and it
involves therefore, another election
before the question of the Lords is set-
tled. If another general election is to
be held we should have it as soon as
possible."

This manifesto, which has been re-
ceived in Premier Asquith, is generally
accepted as an ultimatum, and it is be-

Powder Explosion Stampedes
Stanford Students.

Eight Lose Lives in Accident
Near Oakland.

Miracle That Fifty Were Not
Blown to Pieces.

(BY DIRECT WIRE TO THE TIMES.)

STANFORD UNIVERSITY, Feb. 17.
—[Exclusive Dispatch.] The explosion
at San Lorenzo caused a panic at
Stanford University this morning.
The students made a dash from the
library and class rooms, when the
great quadrangle gave a violent lurch
just before 11 o'clock. The walls sud-
denly jerked and the red tile roofs
seemed to be crumbling over their
heads.

"An earthquake," cried many, and a
wild scramble was made for the doors.
About 150 students were in the li-
brary, and they ran onto the campus.
Students in the class rooms jumped
from their chairs. Most of the pro-
fessors immediately dismissed their
classes. Some believed that the shock
had been caused by a lighter explosion
in the mechanical department or in
the chemistry building, so to them it
did not feel as though it had resulted
from a quake.

It was not known until two hours
later that the explosion across the
bay had been responsible for the
"tremor."
Several window panes were shat-
tered by the shock, but no serious
damage was done. Many of the "co-
eds" were completely unnerved by
the excitement and were absent from
their classes during the remainder of
the day.

POWDER EXPLOSION
COSTS FIVE LIVES.

[ASSOCIATED PRESS NIGHT REPORT.]

OAKLAND, Feb. 17.—An explosion
in the plant of the Trojan powder
works at San Lorenzo today cost the
lives of eight men and a pecuniary loss
of \$5000. Four other employees were
seriously if not fatally injured, and a
dozen more, including Superintendent
Martin, were burned and bruised and
narrowly escaped with their lives.
That half a hundred men were not
blown to atoms is one of the myster-
ies of chance. In a magazine located
in the center of the twenty-five build-
ings which made up the plant was
stored 15,000 pounds of powder ready
for shipment.

Fire followed the explosion, and ten
of the structures were burned to the
ground, the surrounding buildings
with a wall of flame through which
the rescuers dared not venture.

The dead:
JAMES MCCARTHY, chemist.
REUBEN THARP, chemist.
JOHN LEWIS, mixer.

ALFRED JOOS, dry house man.
UNIDENTIFIED CHINESEMAN.
ELMER C. GOULDING, helper.
HENRY ONIART, laborer.
W. O. CHIEF, laborer.

The three last named died tonight as
a result of their injuries.
Bing Bing, the only one of those
badly wounded who is still alive, is not
expected to recover.

FIRE GIVES FIRST WARNING.

The first warning of the disaster
was the outbreak of fire in the mixing
room. The blaze had hardly been no-
ticed when the explosion followed, its
force wrecking neighboring buildings
and hurling one of the mixers sev-
eral hundred feet through the air.

Nearly fifty men and women were in
and near the plant, and they were
thrown to the ground by the violence
of the blast.

Fire followed, leaping from building
to building, and the injured, pinned
under the debris, were threatened with
incineration.

The roar of the explosion drew
hundreds of persons to the scene, who
by heroic exertions the dead and
maimed were dragged from the ruins.
Only when it became known that the
magazine was threatened by the
flames and another and more terrific
explosion was possible at any moment
did the efforts at rescue relax.

Superintendent Martin was caught
in the wreckage of his office. He
emerged with his hair burned from
his head and his body bruised and
lacerated.

Officials of the company stated to-
night that they believe the explosion
was caused by some workman pulling
a box of explosives along the floor,
violating one of the strictest rules in
the factory.

MIX-UP.

HIS "FRIENDS"
AND A RESCUE.

POLICE THINK KNOCKOUT DROPS
ARE IN EVIDENCE.

Young Canadian With Cash Invited

With Two Alleged Confederates
Are Arrested and Held on Suspicion
Poison in His Shirt.

Encountering knockout drops, two
pair of fists, a knife and several mis-
siles, M. A. Freeman, who recently
came here from Lethbridge, Alberta,
Can., was rescued last night from the
clutches of his "friends" and taken to
the Receiving Hospital. In rescuing
Freeman, Patrolmen Storey and Turner
also gathered in the "friends" and
uncovered what they believe is a clear-
ly defined case of "knockout work."

Freeman lives in a rooming-house
at Fifth and Wall streets. He has a
little money which he saved up prior
to coming here from Canada and he
mentioned this fact to L. Crossman,
who lives in the same place.

Crossman is said to have coveted the
cash, but was too timid to take it
away from Freeman. He is believed
to have told W. L. Garland, who
lives in a rooming-house on East First
street, Garland is not timid.

As a result of Garland's alleged ad-
vice, Crossman invited the man with
money to have a drink with him in
the Mineral saloon at the corner of
Main and First streets.

Surgeons say that Crossman "may" have
tried to drug his drinking companion,
as he shows traces of chloroform, which
was probably introduced into his beer.
However it happened, Freeman sud-

fortunate possessor of cash rushed from
the saloon and called for help. The
cry was answered by Garland, the con-
fidential advisor of Crossman, who,
strangely enough, was waiting outside
the saloon. Garland tried to help
Freeman, but missed the aggressor.
Crossman, each time and hit the un-
fortunate victim. In a few seconds
the three men were dripping with
blood, but Freeman was in twice as
bad a condition as the other two.
When the police interfered they at
first believed that they had arrested
a bunch of drunken braves.
Events which followed proved their
mistake.

Believing that Crossman was the
really dangerous man, they searched
him and found \$35 in gold in his pocket.
As a precautionary measure they
searched Freeman, the victim,
and found no money in his clothes.
Cause Freeman volunteered the infor-
mation that the latter had simply come
to his rescue.

At the Police Station Freeman said
that Crossman had robbed him of \$75.
He put his hand in his side pocket as
he made the accusation and was sur-
prised to discover a roll of \$75.
The policemen were equally surprised.
On the way to the Police Station Freeman
and it is apparent that he must
have returned the money to his vic-
tim's pocket.

When Garland was searched he was
found to have a bottle of chloroform
in his pocket. He was also found with
two or three other men, and a gold
watch in his fannel shirt, and a
crock. It is believed that he has a
penitentiary record and efforts will be
made to look into his recent doings
in this city.

COLYEA

Where Bargains Reign

Many people ask: "Where shall I purchase furniture?" The question is often put because of the many alluring new advertisements of furniture bargains and attractive show-window displays. The safe answer and guide is by comparison. Compare Colyear's immense stock of quality and the prices—with any other store you know what the comparison will demonstrate. Only honest goods at honest prices are tolerated here.

And remember, only one more word: **Get-Acquainted**

OFFERING

Such inducements in furniture bargains you cannot afford not to visit our store. Get acquainted with our modern methods of doing an immense furniture business.

of Animals Best because of Good Diet

Interview was recent with L. T. Cooper, the man whose theory and method of doing an immense furniture business. In speaking of the success of his medicine, he said: "My medicine is the stomach. That is the trouble. The human stomach becomes degenerate, and for most ill health, it is the stomach, and the wild animal, you see no nerve, chronic debility. They are after day, with practice, and they are not themselves with food. They have not had enough of it. The human race is suffering this for years, and the result—half the people are suffering from poor health. Just a half-fact, tired, they don't really matter with them. At all the trouble is at overworked stomachs. This with my medicine, and the people of this country, the same thing in Europe. This is the real reason for my preparation who have recently to Cooper's theory is proven, of a Hancock St., New York, has the

Southern California Association to Be Organized Tomorrow—Trip to Fossil Beds Today.

The Biology Section of the Southern California Association of Science and Mathematics will meet for organization tomorrow morning at 10:15 o'clock at the State Normal School. An address will be delivered by H. T. Clifton, of the faculty of Tarop Polytechnic Institute, on "Section Work of the Association." "Zoology as Related to the Public" is the subject of an address by Prof. Charles F. Baker of Pomona College. Following this address will be a general discussion. In the afternoon there will be a trip to the Rancho La Brea fossil beds, the car leaving the Hill-street station at 1:15. Prof. Gilbert of the Los Angeles High School will be in charge of the excursion. Teachers and scientists from all over Southern California are expected at this meeting.

THE OIL INDUSTRY.

EASTERN MEN VISIT FIELDS.

OIL DEVELOPMENT IN CALIFORNIA WATCHED BY THEM.

Reasons Why Prominent Operators Are Preparing to Desert the Old Districts of the East—Coast Field Production Should Not Be Overlooked—Oil Briefs.

California oilfields are attracting the attention of eastern operators as never before. This is ascribed partly to the recent unusual results obtained in the North Midway district, and partly to the fact that the conditions are rather unfavorable in the eastern and mid-continent fields. The conditions are much more to the liking of the big operators of the country here than elsewhere. In fact, the present conditions almost approach a stampede.

It is common occurrence these days for several prominent operators from the East to be engaged in investigating the California fields. At the present time, Fred Allen of Detroit, a prominent mid-continent operator, in company with Timothy Spelacy, is making an inspection of the Midway district. F. L. Sawyer, a big Oklahoma operator, also is paying a visit of inspection to the various oil districts.

The American Oilfields Company, recently organized, is meeting with the antitrust suits in its Midway operations, having brought in its first well, which was located on section 18, North Midway, is down 300 feet, with forty feet of oil sand, and makes a good showing. Two of seven wells on section 26 are down 400 feet, and the other five are ready to spud. Two rigs are ready to start drilling on section 15. The work of rigs at work and in process of erection by this company is twenty-three.

It was reported yesterday that the Amber Oil Company of this city, operating on section 26, 21-22, North Midway, had struck oil at a depth of 140 feet, the flow being 400 barrels a day. Newton and Carman of this city are ready to begin drilling on section 1, 21-22, north of the already proven field. Green and Hutchinson have just bought the acres of prospective oil land on section 18, 20-22, North Midway.

Coast Field Production.

It is remarked by some that little is heard these days from the Coast oil field, probably because all eyes now are turned toward Midway and Sunset. But the Coast field should not be overlooked. The last report showed the Santa Maria field as standing third in the productive list, having 418,000 barrels to its credit. Lompoc has a monthly production of 53,000 barrels and Summerfield 600 barrels, giving a total for the entire Coast field of 477,000 barrels a month.

Oil on Cawston Ranch.

PERRIS, Feb. 17.—Considerable excitement was created here this morning when the announcement was made that oil had been tapped on the Cawston ranch northeast of here. While sinking a shaft and running a tunnel to connect the wells, the men struck a stratum of gravel twenty feet below the surface so strongly impregnated with oil that they were forced to abandon their work.

Corona Woman Dies After Short Illness—Was Identified With Forward Movements.

SPECIAL CORRESPONDENCE OF THE TIMES. CORONA, Feb. 17.—Miss Helen C. Platt, who died at her home yesterday after two weeks' illness resulting from heart trouble, was a prominent resident for seventeen years. She was a native of West Fayette, N. Y. and moved from that State to Clinton, Iowa, where her father, Rev. A. W. Platt, built the first Presbyterian Church. After graduating from the St. Louis Normal School, she taught in St. Louis and later in Grant's Seminary, Chicago, where his sisters, Misses Anna and Stella Platt, were instructors in music and art. The next home for several years was in Macine, Iowa. Miss Platt coming from there with her husband to Corona, an engaging in civic culture.

SPECIAL CORRESPONDENCE OF THE TIMES. ANAHEIM, Feb. 17.—At the recent meeting of the visiting K. of P. lodges in this city, \$25 was awarded in prizes. The judges have just rendered their decision thus: To the company of the Uniform Rank parading the most men (Anaheim not competing) \$25, to Gauntlet company of Los Angeles No. 46. For the company of the Uniform Rank making best appearance in parade, \$50, to Santa Barbara No. 45. To the subordinate lodge parading the greatest number of members (Marathon of Los Angeles and Anaheim not competing.) \$50, to Gauntlet No. 120. To the subordinate lodge making the best appearance, \$50, to Mira Monte, No. 129 of Los Angeles and Garvanza.

The Judges were Brig.-Gen. Driffl, Judge Hart, Grand C. C. Col. T. A. Norney of San Francisco and Col. Schaffner of San Francisco, Grand K. of R. and S.

INSURANCE WORLD.

Superintendent Hothchkin of New York has four important bills before the Legislature, one of which requires the examination of fire, surety, casualty and miscellaneous companies, as well as assessment associations, and fraternal order, at least once in every five years, and a general anti-rebate law, similar to those in force in Massachusetts and Pennsylvania, which will penalize rebating and discriminations, not merely in the writing of fire insurance, as now, but in the fire, casualty, surety and miscellaneous fields.

The Lincoln National Holding Corporation of America is being organized with a capital of \$15,000,000, the proposed headquarters to be in Washington. The object of the corporation is to form four large fire insurance companies, East, West, North and South; it is to have a life insurance company and casualty and surety companies. Its projects propose to buy up existing insurance corporations and to write altogether ninety-four lines of insurance.

State Insurance Commissioner Henry of Mississippi has won every point contested for in the decision by the Supreme Court in the case of the Manufacturing Lumbermen's Underwriters Association of Kansas City, Mo. The commissioner contended that the concern was an insurance company, and that before it could do business legally in the State of Mississippi it would have to comply with the law, as do other insurance companies. The Supreme Court sustained this contention on all points.

At the annual meeting of the Canada Life it was announced that the amount of profits to be allotted policy holders will exceed \$2,000,000. This amount is materially larger than the policy holders received five years ago, and very much larger than was allotted ten years ago.

The United States government owns buildings that cost more than \$300,000, and is spending \$3,000,000 a year for new buildings. None of these buildings is insured against loss by fire. Insurance at the ordinary rate would cost more than \$600,000 a year, and the government avoids this great tax by constructing buildings that are securely fireproof.

UNDIVERSED TELEGRAMS.

Undelivered messages are at the Western Union office, First and Spring streets, for Frank Murphy, Mrs. Emily H. Campbell, Theresa E. Haines, A. Sprague, E. Ryan, H. J. Grant, H. G. Lighthart, Ferdinand (cable), Mrs. Celia Backus, J. Rosenzweig, F. E. Schaud, H. Langworthy.

The stand taken by United States Senator Herburn against the placing of the statue of Gen. Robert E. Lee in Statuary Hall, in the national Capitol, is commended in resolutions adopted Wednesday by the Boise, Idaho post of the G.A.R. The resolutions allude to the crisis of the nation, and the public press as "unjust, cruel and calculated to keep alive the sectional differences which, as we feel, should have long since been allowed to disappear."

INFANT DIES FROM BURNS.

San Diego Child Succumbs to Injuries. Accused Lawyer Fails to Get Bail Money.

SPECIAL CORRESPONDENCE OF THE TIMES. SAN DIEGO, Feb. 17.—Richard, the 2 months old baby of Mr. and Mrs. E. Rigas, whose face and head were terribly burned in the fire which last night damaged Rigas' store and home, died this morning. The mother is prostrated. The other boy burned is not seriously injured. Firemen saved the building, but a portion of Rigas' household effects are a total loss.

Attorney A. J. Morganstern still occupies a cell in the County Jail, being unable to furnish \$5000 bail under which he is held for appearance in Township Court for preliminary hearing in the 23rd trial. He is charged with uttering fictitious checks. The District Attorney's office has complaints from at least a dozen firms, which say they have been victimized by Morganstern. Mrs. Margarette Nevius asserts she paid the lawyer \$250 as a retainer to conduct a case. She found out that he never filed the papers and when she demanded her money back he refused it. Several persons claim Morganstern's law library, as it appears he mortgaged it many times to whoever would advance him the money.

YRICKIE DIVORCE BEING. Alleging that R. C. Yrickie failed to pay him his fee for prosecuting his divorce case, Attorney Oval Pirkey has brought suit in Superior Court to recover \$200 from Joseph Schachtmeyer, uncle of Yrickie, whose sensational suit against his bride of six months resulted in a divorce being granted the wife instead. Schachtmeyer says Pirkey agreed to take the case for \$75. Yrickie and his wife, it is said, have become reconciled and are living together in Portland, Or.

False spirits called to earth at a
seance moved Andrew E. Miller, a car-
penter, to take unto himself a bride
before the legal process of severing
him from his second wife was com-
plete. Now he is in the County Jail,
awaiting a hearing before Justice
Summerfield on a charge of bigamy
which was preferred by his latest
spouse.

Miller ventured thrice upon the mar-
rimonial sea, but indicated to the mag-
istrate yesterday that he will never
again be a bridegroom. Death dis-
solved the bonds of the first marriage.
His second wife sought the process of
the Superior Court to end the next
of. An interlocutory decree was
granted her on February 5 of last year.

Two days after the required year of
probation Miller died, to a minister
with Miss Mary C. Whitmore of No.
35 Alexandria avenue, and only two
days later she left him to seek the
advice of a deputy District Attorney.
It was on her statements, which were
made under oath, that the warrant
for Miller's arrest was issued.

The complaint alleges that Miller is
still the husband of Lettie Miller of
No. 20 East Pico street. It seems that
the final decree of divorce was not
signed at the lapse of the required
time and that Miller had taken it for
granted that it had been.

Miller and Miss Whitmore are said
to have met at a convalescent home
in a darkened room, where
ghosts were invited to walk, they were
part of a circle and stood with clasped
hands. The message came to them that
they were afflicted and their troth
was soon plighted. Incidentally, on
that occasion, Miller showed a bank
book which indicated that he had
\$49,000 to his credit. Of course noth-
ing so worldly as this could have in-
fluenced the spirits.

But Miller's bank account, it seems,
was only a phantom, and the day after
the marriage it developed that he did
not even have the wherewithal for a break-
fast. Wife No. 2 of the living ones
had been accustomed to riding in au-
tomobiles and it is said to have a con-
siderable fortune of her own. Apparently
she did not fancy being compelled
to contribute to the family ex-
penses, and so she left her husband.

"How much is the bill?" asked Mil-
ler, after he had been arraigned be-
fore Justice Summerfield yesterday.

"Fifty thousand dollars," replied the
magistrate.

"That's a little too big for my pocket-
book," remarked the carpenter.

"This is a very serious offense in this
State," solemnly commented the jus-
tice. As a happy second thought he
added: "It wouldn't be so bad in Utah."

"Will you appoint an attorney for
me?" the prisoner asked.

"Why don't you hire one yourself?"
he was asked.

"Well, you see I spent all my money
getting married and I haven't a cent
to get me out of the trouble it got me
into," responded Miller.

The justice assured him that there
would probably be some young attorney
who would be willing to take his
case for the exposure.

Miller insisted on explaining that he
had not contested the divorce his second
wife had sought, and supposed she
had obtained the final decree when
sufficient time had elapsed.

If the spirits which moved him to
contract the marriage are good ones
they will have opportunity to work
with him, as he is now unemployed at
the jail. He will not be able to get
out of duration before Monday, when
he will have a hearing.

HUBBY MUST BEHAVE.

Compelled to Give Bond or Go to Jail
for Threatening Wife, Who Now
Seeks Divorce.

J. T. Hutchinson of No. 528 Wall
street must furnish a bond of \$1000 to
insure his good behavior, or remain in
jail for six months, according to the
ruling of Justice Pierce, after Hutch-
inson was given a hearing yesterday
on a charge of having threatened to
kill his wife.

The evidence showed that the man
was insanely jealous of his wife and
that he sought to wring confessions
of untruthfulness from her, at the
point of a loaded revolver, on several
occasions.

She bore her burden silently until
the 4th inst., when Hutchinson started
to run after her at Fifth and Main
streets, at the same time threatening her.
An officer stopped him by force.

Mrs. Hutchinson has filed a suit for
divorce, desiring she does not care
to be attached to a man who has
frequently threatened not only to end
her life, but to "burn her out."

Hutchinson told a long story as to
how he had been practically been made
slave in the roving-house his wife
kept, and that she had used vile lan-
guage toward him. He was uncontro-

positive that she never said bad words

The Autocrat

A Style of Distinction

IT IS assured that Pumps will
be very fashionable for Spring
and Summer wear. They give
a certain trimness to the
foot obtainable in no
other style of Footwear.
The "Autocrat" model il-
lustrated is one of the
most popular Pumps of
this season. The Instep
strap enhances the daintiness of
this model and insures a perfect
fit in the heel. The "Autocrat" is shown in
Black Castor, Patent and White Calfskin and
Dull Kid. One of the many new spring models
we are showing at popular prices that repre-
sent the utmost in style, quality and value.

Nature's Gift from the Sunny South

Cottolene Comes from Dixieland!

The source of lard is against it. Lard-cooked food may not cause indigestion
and throw your stomach out of kilter, but it will be only a matter of luck if it doesn't.

The source of Cottolene is pleasing—the product is healthful. The oil is extracted
from the cotton seed grown in the fields of the Sunny South. It is then refined and
rendered odorless and neutral in taste. From Cottonfield to Kitchen—human hands
never touch the oil from which Cottolene is made.

Cottolene is an absolutely pure product—of pure origin and ancestry, and will make
palatable, digestible, healthful, wholesome food. It is the best frying and shortening
medium made to-day. If the best is none too good for you, ask
your grocer for Cottolene, and do not let any prejudice stand in
the way. The only way to know Cottolene is to test it yourself.

COTTOLENE is Guaranteed Your grocer is hereby authorized to
refund your money in case you are
not pleased, after having given Cottolene a fair test.

Never Sold in Bulk Cottolene is packed in pails with an air-tight top to
keep it clean, fresh and wholesome, and prevent it
from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

GREASY FIND, IS IT RICH.

Santa Barbara Man Takes from Gull's Substance Which He Hopes Will Prove Ambergris.

SANTA BARBARA, Feb. 17.—Eight quarts of what Frank Libby hopes is ambergris was picked up by him on the beach near El Capitán, and brought to this city yesterday. His attention was called by a number of gulls feasting on something and, going up, he found a mass of grayish stuff streaked like marble. Apparently the birds got the greater part of the substance.

Libby will communicate with perfume houses in the East in the hope of finding out that it really is ambergris, in which case it is worth several hundred dollars. Ambergris is a morbid secretion of the sperm whale and comes in masses of from fifty to several hundred pounds.

JOKE REACTS UPON HOAXER.

ASSISTANT POSTMASTER AT EL CENTRO IN TROUBLE.

His Superior Having Married, the Young Man Plans Fake Robbery to Disturb Serenity of Home.

He Now Remains in the Custody of the Sheriff.

(BY DIRECT WIRE TO THE TIMES)

EL CENTRO, Feb. 17.—(Exclusive Dispatch.) Residents of the general portion of this city were awakened by a fusillade of shots and yelling at 3 o'clock this morning, at the postoffice, cries of help from Assistant Postmaster Joseph Billingsley quickly brought forth half clad citizens. They found the young man in a high state of excitement as he showed bullet holes through the front door and woodwork.

He said robbers had attacked him when he entered the postoffice after returning from a night's visit at a Mexican, the border town. Billingsley told a wild tale of entering the office to release his dog, striking a match to seek electric light, finding the juice was off, but discovering robbers, who took the opportunity to shoot at him and make their escape.

When citizens entered the postoffice they found the cash drawers open and some money scattered over the floor. It was discovered later that Uncle Sam's cash was short and the whole affair looked so suspicious Billingsley was placed in the custody of the sheriff. He later broke down and confessed he had attempted to carry out a hoax on Postmaster Miller, who was married last night. Billingsley showed where he had secreted money, which was restored to the postoffice till. He was retained in custody, and a Postoffice Inspector sent for to make investigation.

CONVERTS BARREN HILLS.

Oregonian Clears and Terraces Land Near Little Lake and Will Plant Orange Trees.

HEMET, Feb. 17.—The hillside property near Little Lake, recently purchased by R. M. Lombard of Portland, is being cleared and terraced preparatory to the planting of Thompson seedless and late Valencia oranges. Lombard has also bought the Will Botterill hill adjoining for a residence site, and will build an artistic winter home.

H. P. Herman, who bought two young orange groves just below the Lombard property, also intends building soon. He owns a fine thirty-acre stretch of oranges, which he set out last year on the sloping hillside above Valle Vista.

The culture of ginseng is beginning to arouse considerable interest. W. M. Kimbrell, who was a pioneer in the industry, has raised it with good deal of success. Messrs. Repelco and Nevins are constructing lath houses on their property and are planning to start ginseng culture on a large scale.

William S. Cord, agent for a company of Los Angeles and eastern real estate, is registered at Hotel Hemet. He is here to see what the prospects are for the starting of a sugar factory. He says his company is ready to start on the factory within ninety days after a sufficient supply of beets is assured.

Mrs. R. L. Wilson has sold her ten-acre ranch to Mr. and Mrs. J. A. Chamberlain of Redlands. Mrs. Wilson and family have moved to the latter place.

G. Henderson and George Fogg have bought thirty acres of unimproved land on P. Wright between Hemet and Park Hill.

ESCONDIDO.

ESCONDIDO, Feb. 17.—The overcrowded condition of the High School was condemned by County Superintendent Baldwin yesterday. He said the high and grammar students should not be permitted to occupy the same building. Some of the latter are doing so pending the completion of the building made necessary by the condemnation of the Line-street structure.

The San Diego County Fair Association has advertised for bids for the construction of a half-mile race track at the Rock Springs grounds.

P. J. Windom, for six years in the general merchandise business in the Stevenson block, has sold out to his son, M. V. Windom, and will retire. The High School basketball team will play the San Diego team here Tuesday.

C. B. Sharp has been elected clerk of the Mutual Water Company, vice E. A. Nulton, resigned.

Announcement is made of the engagement of Miss Elizabeth Sharp, daughter of C. B. Sharp, to W. F. Buhler, chief engineer of the U.S.S. Cleveland, now at Shanghai. The wedding will take place April 17.

John Spier and Miss Gladys Drew were married in San Diego yesterday.

ELSINORE.

ELSINORE, Feb. 17.—Johann Albar, F. A. Hargis, C. A. Appleford, Los Angeles; Lucy P. Adams, Sara B. Adams, Dorothy W. B. Morris, Chicago, are among guests at the Elsinore Hotel.

Real estate transfers this week include: J. T. Kuhns to G. W. Arnett, lots 1 and 2, Frame addition; John H. Gamble to V. O. Brown, portion of lot 1, block 1; Susana Barkhurst to A. R. Burnham, portions of lots 18 and 20, block 12.

SAN BERNARDINO PEOPLE WILL START CAMPAIGN.

Because of Numerous Accidents Caused by Intoxicated Autoists Attempt Will Be Made to Have State Law Passed Dealing With Matter. Clew to Bank Robber.

SAN BERNARDINO, Feb. 17.—Because of the numerous accidents in this county caused by intoxicated autoists, a campaign is about to be inaugurated here for the passage of a State law which will make it a misdemeanor for persons under the influence of liquor to occupy or drive motor-propelled conveyances of all descriptions. The law is aimed at joy riders.

ROBBERS WRITE.

Mandel Poppett has furnished a new clew as to the identity of the Highland bank robbers. On the night of the affair, Poppett and a companion, who are engaged in hauling gravel for the Edison company at Mentone, while preparing to retire in a barn for the night, were surprised by the sudden appearance of a butler, costumed stranger. The latter seemed disconcerted to find the barn occupied, and, asking for a sack, disappeared in the brush.

Sheriff Ralphs devoted today in following out this clew. The region between Highland and Mentone was carefully gone over, and it is said that tracks were discovered which corroborate Poppett's statement. This story also adds to the belief that a mysterious letter received Monday by the City Marshal of Redlands, ostensibly from the robber, may have really been penned by him.

This declares that after the robbery the thief concealed himself in an orange tree, waiting until dark, when he made his escape. He says that he will return the money, but has a temporary use for it, and only committed the crime because driven desperate.

RENDEZVOUS OF TROUBLES.

Sheriff Ralphs this morning returned from Mexicali, across the line from Imperial Valley, where he went in quest of the Powers boys, but found no trace of them. He says Mexicali is a rendezvous of robbers and thieves, who operate on this side of the border.

DISMISSAL ORDERED.

A dismissal has been ordered in the suit of H. A. Canoll against A. V. Martin. Canoll brought a civil action to recover a third interest in \$14,000, representing the profits of their brokerage firm from the sale of the Jay Gould mines at Helena, Mont. He alleged that Martin, head of the firm, claimed to have paid \$14,000 commission to H. E. Steech, and later this was found to be untrue. On Canoll's complaint, Judge Wilbur of Los Angeles issued a warrant for Martin's arrest, charged with embezzlement. He has been at liberty under heavy bond. He resides at Redlands.

"FLOATED" OUT.

Mrs. A. Goodwin and her daughter with a wooden leg, who had quite a series of adventures with the Los Angeles and Pasadena police last fall, were "floated" out of town today. The former spent some time in the City Jail, before a "floater" was forthcoming. The two have floundered the people of this city. Redlands and Riverside for a number of weeks.

USE HANDS, GET COLD FEET.

John Collins and Peter Fallon were taken into custody today by deputies by Deputy Sheriff Hewins. A search of their room brought to light a large number of checks on local banks. The couple had been writing signatures on the checks. They admit having planned to float bank checks, but claim to have got cold feet.

Times' Cook Book No. 2, latest edition, largest, most complete and comprehensive cook book of the series, is out by The Times. The recipes brought out by The Times' prize-cooking contest are generally from noted chefs. Price 30 cents; by mail 3 cents additional. Address The Times, Los Angeles.

ENTERTAINS MANY GUESTS. Redlands, Amid the Orange Groves, Attracts Many Visitors from the Frozen East.

REDLANDS, Feb. 17.—Never before in the history of Redlands have there been so many "strangers within her gates" as at this time. Hotels, boarding-houses, bungalows and mansions are practically full, the weather is ideal and everybody is accordingly happy. Tourists are planning to stay later than ever before. Redlands is particularly beautiful in May and June.

La Casa Loma yesterday broke the record for many seasons with a house count of 165 guests. A comparison of this year's January business with last is of interest. The hotel opened January 5 last year, and from that date until the end of the month there were 800 guests in the house; this season, between the corresponding dates, 1794 guests have been at the "house on the hill."

Among prominent easterners who have sought out Redlands as an ideal place in which to spend a season are Judge and Mrs. C. D. Gregory, Appleton, Gregory, Miss Gregory and Mrs. A. P. Palmer, who arrived here in December from Albany. They brought their motor with them. Mr. and Mrs. W. V. Carlin, who spent a season here six years ago, arrived this week from Pittsburgh, intending to remain during spring.

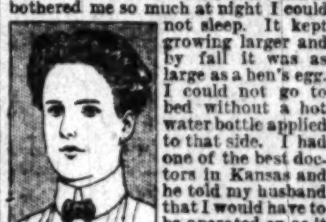

Mr. and Mrs. E. E. Shauer, who arrived early in the season from New York, have become enamored of the city, and have purchased a fine orange grove on the Heights, in which they will erect a home. Mr. Shauer is a member of a syndicate operating automatic picture shows in large cities of the East. Mr. and Mrs. E. F. Allen of Elberia, O., are spending the season at the hotel. They own a fine grove near the city. They are enthusiastic motorists, having their own big machine with them.

Mr. and Mrs. W. E. Dean and Miss Helen Dean have arrived from St. Paul for a long stay. Mr. Dean was formerly State Senator from his district, and is a director of the Great Northern Railway. John Carr of Toledo Springs and his daughter, Miss

DOCTOR ADVISED OPERATION

Cured by Lydia E. Pinkham's Vegetable Compound

Galena, Kans.—"A year ago last March I fell, and a few days after there was soreness in my right side. In a short time a bunch came and it bothered me so much at night I could not sleep. It kept growing larger and by fall it was as large as a hen's egg. It could not go to bed without a hot water bottle applied to that side. I had one of the best doctors in Kansas and he told my husband that I would have to be operated on as it was something like a tumor caused by a rupture. I wrote to you for advice and you told me not to get discouraged but to take Lydia E. Pinkham's Vegetable Compound. I did take it and soon the lump in my side broke and passed away."—Mrs. R. R. HUNT, 713 Mineral Ave., Galena, Kans.

Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has proved to be the most successful remedy for curing the worst forms of female ills, including displacements, inflammation, abdominal tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, and nervous prostration. It costs but a trifle to try it, and the result has been worth millions to many suffering women.

If you want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

Rosa V. Carr, have arrived for the season.

Mr. and Mrs. C. A. Adams of Boston have returned for several months. Mr. and Mrs. F. M. Montgomery and the Misses Montgomery of Indianapolis are popular guests. Mr. and Mrs. A. Swope of Quogue, Long Island, who arrived early in the season, and after a few weeks went down to the coast, have returned.

Gen. and Mrs. Charles R. Greenleaf expect to remain at the hotel for a year.

MEASLES HALTS MURDER TRIAL.

JURYMAN IS THOUGHT TO BE SUFFERING FROM IT.

Case of Man Accused of Killing an Oxnard Officer May Have to Go Over for Several Weeks—Large Mill and Office to Be Erected by Lumber Company.

VENTURA, Feb. 17.—The trial of Manuel Fabella in the Superior Court for the murder of Officer McNaughton in Oxnard four years ago, was halted this morning because of the illness of Juror Lloyd Poplin, who is confined to his bed with what is supposed to be measles. The case went over until tomorrow, in the hopes the jurymen might be out, but if measles should develop it will be several weeks before the trial can be taken up again. The jurymen were cautioned today by the court to avoid reading of the case in the newspapers.

Under Sheriff Hayden left today for Chicago to bring back Frank Nallor, an ex-convict wanted here for forgery. The Superior court ordered the arrest of a new burglar for the use of the County Hospital superintendent and his family.

Lorina Barry Griffin has brought suit for divorce from George E. Griffin for failure to provide. There is one child, a son five years of age, in custody of the mother.

A large mill and offices are to be erected at Kalamita and Fingers St. The building will be of brick and stone and fire-proof, the dimensions being 100x125 feet.

Gertrude C. Bailey, a former resident of this city, was married yesterday in Los Angeles to Edward P. Eastman. The bride is a graduate of the local High School.

COLTON.

COLTON, Feb. 17.—A one-story brick building 24x30 feet is being erected on the corner of J street, between Seventh and Eighth streets, for the Japanese Sapporo 48th-house people.

Mr. and Mrs. Grover C. Smith have gone to San Francisco.

Mr. and Mrs. James Swinerton left today for Palm Springs.

ALFALFA AND DAIRYING LANDS

\$40 PER ACRE AND UP

One-Third Cash, Balance Term of Years

IN THE

Corcoran District

This wonderfully productive silt deposit land is right on the main line of the Santa Fe Railroad—12½ miles south of Corcoran. You've heard of Corcoran, the most successful California agricultural proposition of the last ten years. This land is of exactly the same character and has the same natural advantages as the now famous Corcoran land, upon which so many fortunes are being made. It was formerly a rich stock ranch, and is now covered with a heavy growth of wild grasses, showing its remarkable fertility. Flowing and pumping wells can be easily developed at small cost.

In less than two years, this \$40 land should be worth from \$100 to \$250 per acre. This is a phenomenal opportunity to secure the most productive alfalfa land in the State at bedrock prices. Big profits can be made in alfalfa, dairying, stock raising, grain, poultry, grapes, vegetables, asparagus, etc. Register early tomorrow for our big special land excursion.

HOUSE WONDERplane and Dirigible in
Flight Over City.A New Kink in Y.M.C.A.
Aviation Week.Campaign for New Members
Goes on With Zest.

Aeroplane and a dirigible balloon in the heavens about noon yesterday created more or less excitement in the business section of Los Angeles as well as in the residence section. Hundreds of people were in an attempt to discern the outlines of the machines and it was only when field glasses were taken into play that people came to the realization of the fact that the affairs were large paper toys, were a portion of the daylight work of the "Second Aviation Week" of the Young Men's Christian Association, to increase the membership of the organization.

The dirigible balloon carrying the membership ticket had not been found until a late hour yesterday. In addition to this dirigible balloon, an additional one will be floated every day, carrying tickets which will be good for day privileges in any department of the organization, with the exception of the gymnasium, and shower baths, reading and all the many pleasures of amusement and recreation the big building on Hope

CAMPAIGN RESHES ON. The campaign yesterday went on. The dirigible balloon and the other teams started out in the morning and traveled in automobiles to the various factories. It was more of a completion of teams than of work. The number of new members enrolled will not be made for two or three days, until the moving swiftly.

One of the very successful aviators of the day was William B. Jones and, under the pilotage of George W. Jones, he flew high elated in success and expects to have his dirigible balloon, one that will eclipse all other records made. An airplane that has gone after the dirigible style is the Dyer. A station has been erected by the Y.M.C.A. building the dirigible and the crew met under the dirigible. The dirigible is in charge of the booth. He is in charge of the booth. Anderson, superintendent of money-order department of the Y.M.C.A., was on hand with a number of money orders. He said that the ancient plan of strong mind in strong hands was nowhere better exemplified in the work which is accomplished by the local organization. A number of musical numbers, a complete success and Harrison felt certain that his dirigible will do much better work than any heretofore devised.

SENATOR SMITH
WON HIS FIGHT.

WALTER WELLMAN in Chicago Record-Herald. One of the most heroic fights ever made in American political life is to have his sequel in a few days, when the waterways treaty between the United States and Great Britain is to be ratified by the great water powers at the State Department. Negotiations to this end have progressed near to completion and when the treaty becomes operative it will be found that the rights of the United States in the great water powers at St. Mary's, Marie and at Niagara have been amply protected.

SAVED TO NATION ST. MARY'S RIVER RIGHTS. Created One of the Most Sensational Incidents in History of the Senator During the Contest, But After Two Years His Opponents Accepted His Amendment.

WALTER WELLMAN in Chicago Record-Herald. One of the most heroic fights ever made in American political life is to have his sequel in a few days, when the waterways treaty between the United States and Great Britain is to be ratified by the great water powers at the State Department. Negotiations to this end have progressed near to completion and when the treaty becomes operative it will be found that the rights of the United States in the great water powers at St. Mary's, Marie and at Niagara have been amply protected.

When this treaty was brought into the Senate only a few days before the adjournment of Congress last March, it contained a provision which, in the opinion of Senator Smith, was a complete success and Harrison felt certain that his dirigible will do much better work than any heretofore devised.

AWAY GOES ALL
STOMACH MISERYNO INDIGESTION, DYSPEPSIA, GAS
ON STOMACH, HEARTBURN OR
HEADACHE FIVE MINUTES
LATER.

There is Not a Single Reader of This Times Who Suffers From Any Form of Stomach Trouble Who Can Afford to Leave Diapepsin Untried. There is No Other Preparation Which Gives Such Prompt and Lasting Relief.

If you had some Diapepsin handy and would take a little now, your stomach distress or indigestion would vanish in five minutes and you would feel fine.

If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump or lead in your stomach, or if you have heartburn, that is a sign of indigestion. Ask your pharmacist for a 50c case of Paper's Diapepsin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food, mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nervous debility, headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no undigested food left over in the stomach to poison your breath with nauseous odors.

Paper's Diapepsin is a certain cure for out-of-order stomach, because it prevents fermentation and takes hold of your food and digests it just the same as if your stomach was in the right order. Relief in five minutes from all stomach misery is at any drug store waiting for you.

These large 50c cases contain more than sufficient to thoroughly cure almost any case of dyspepsia, indigestion or any other stomach disturbance.

shall be divided according to territorial ownership. In alarm over the situation, the sponsors for the treaty started to exert pressure upon the Senator from Michigan. They induced a part of the Michigan delegation to labor with the stubborn Smith. They set after him Elihu Root, then Secretary of State, Senator Knox, soon to be head of the State Department, and Mr. Aldrich, the Senate leader. President Roosevelt sent for Senator Smith and begged that the treaty be permitted to go through. Knowing that Mr. Smith had great affection for Mr. Taft, the President's son-in-law, he was induced to write an appeal to the Michigan Senator to withdraw his opposition to the treaty.

Once the battle was nearly lost, the advantage of Mr. Smith's absence from the chamber the night before inauguration day the advocates of the treaty were about to move a vote. Mr. Smith appeared in the nick of time, clad in his great coat, hat in hand, so great was his haste, and, despite the cold, he was the victor in the defeat of the convention if they did so. There was a whispered consultation and the Senate took a recess. Horatio was at the post.

At 2 o'clock in the morning of March 4 the phone in Senator Smith's house rang. It was a call from the other end. The well-known exhausted Michigan Senator expected another assault. He was amazed to hear: "We have decided to accept your amendment. The treaty will be ratified with your amendment this morning. congratulate you upon your successful and plucky fight."

Mr. Smith almost fainted from joy. For days and nights he had withstood pressure from administration leaders from all his party leaders, as few men have been called upon to endure. He had stood firm and won against all the odds. It seemed too good to be true. But it was true. The amendment was accepted and the treaty ratified two hours before the inauguration of President Taft, just as the great blizzard of March 4 swooped down upon the city.

Senator Smith had saved to the United States forever the right to 25,000 cubic feet of water per second, with a fall of 18 1/2 feet, in the upper Niagara river, a power worth \$20 per horse power per year, a power which some day may light the cities of Chicago and Detroit. Those who defended the treaty did so upon the ground that the United States had gained an advantage at Niagara and some concession to Canada was only fair. But Mr. Smith would not permit New York's debt to be paid out of Michigan's capital. At the two talks of putting a statue of the fighting Senator upon a rock in the middle of the river.

All the world loves a good lover and a good fighter and the Senate is human. Another element in this plucky battle is of interest. Having shown the stuff that was in him, having forced the old leaders of the Senate to respect him, Mr. Smith became a candidate for a vacant place on the Committee on Foreign Relations, one of the great offices of the upper branch. The old leaders didn't see how they could do it. The place had been promised to Mr. Root, the great Secretary of State. "Well, Root ought to have it," said Mr. Smith, "but there is nothing to prevent your adding another member to the committee and taking both of us on." And in the end they did it.

WALTER WELLMAN. Two Decades of Champions. 1889—John L. Sullivan beat Jake Kilrain, July 8, seventy-five rounds, at Richmond, Minn. in two hours and sixteen minutes, for \$10,000 a side. World's championship.

1892—James J. Corbett defeated John L. Sullivan, New Orleans, September twenty-one rounds; purse nominally \$40,000, actually less than \$25,000.

1897—Robert Fitzsimmons won the undisputed championship from James J. Corbett, March 17, at Carson City, Nev. in fourteen rounds. Purse about \$25,000 net.

1899—James J. Jeffries won the world's title from Robert Fitzsimmons at Coney Island, N. Y., in eleven rounds. House was worth over \$5,000.

1899—James J. Jeffries defeated Thomas Sharkey; Robert Fitzsimmons a second time; James J. Corbett and Jack Monroe retiring from the ring after the last round.

1903—Marvin Hart knocked out Jack Root, July 3, at Reno, Nev., in twelve rounds.

1904—Tommy Burns defeated Marvin Hart, twenty rounds, February 23, at Los Angeles, and won the title.

1906—Jack Johnson, colored, defeated Thomas Burns, twelve rounds, in Australia, before a house estimated to be worth \$10,000. Burns got \$23,000, win or lose; Johnson \$10,000. This was the largest gate ever taken in at a prize fight.

This treaty is ratified with the express understanding that ownership over and use of the waters of the St.
